

# Sinfonía Biótica

## Tech Rider For Sinfonía biótica

### Overview

The Sinfonía Biótica installation is an immersive PCVR experience that utilizes particle systems built in Unreal Engine. It requires specific hardware and setup to ensure optimal performance and engagement. Below are two configurations: **Minimum Requirements** and **Full Setup**.

### 1. Minimum Requirements

#### Hardware:

- **PC Specifications:**
  - **Processor:** Intel Core i7-9700K or AMD Ryzen 7 3700X equivalent or higher.
  - **Graphics Card:** NVIDIA RTX 3060 or AMD Radeon RX 6700 XT or higher.
  - **RAM:** 16 GB.
  - **Storage:** 10 GB of free SSD space.
  - **OS:** Windows 10 or newer.
- **VR Headset:** Meta Quest 3 (connected via USB-C cable with separated power and data support).

- **Cable:**
  - High-quality USB-C cable (minimum 5 meters) supporting high-speed data transfer and separate power supply.
- **Audio:** Utilize Quest 3's built-in audio system.
- **Monitor:** Basic monitor for control and troubleshooting (not visible to the audience).

#### Space Requirements:

- Area of **2m x 2m** for player movement.
- Stable power outlets for PC and headset charging.

## 2. Full Setup

#### Hardware:

- **PC Specifications:**
  - **Processor:** Intel Core i9-12900K or AMD Ryzen 9 5900X equivalent or higher.
  - **Graphics Card:** NVIDIA RTX 4080 or AMD Radeon RX 7900 XTX or higher.
  - **RAM:** 32 GB.
  - **Storage:** 10 GB of free SSD space.
  - **OS:** Windows 10 or newer.
- **VR Headset:** Meta Quest 3 (connected via USB-C cable with separated power and data support).
- **Cable:**
  - High-quality USB-C cable (minimum 5 meters) supporting high-speed data transfer and separate power supply.
- **Audio:**
  - 5.1 surround sound system, properly calibrated for immersive audio.
- **Display:**
  - Large Fullhd **television** (minimum 40 inches) to mirror the VR user's view for the audience.

#### Additional Equipment:

- **Controller:** Standard game controller or mouse and keyboard for interface navigation.
- **Lighting:** Dim ambient lighting to enhance immersion.

### Space Requirements:

- Area of **3m x 3m** for player movement.
- Dedicated stable power outlets for PC, surround sound, and display.
- Space for audience seating or standing area with a clear view of the television.

### 3. Setup & Support

#### Setup Time:

- Minimum configuration: **4 hours** for setup and testing.
- Full setup: **8 hours**, including audio and video calibration.

#### Technicians Needed:

- **1 Technician** to assist with PC and VR setup.
- **1 Sound Engineer** for audio calibration (Full Setup only).

#### Notes:

- A **stable internet connection** is recommended for potential updates or troubleshooting.
- Ensure proper ventilation for the PC to prevent overheating.

This tech rider ensures that the Sinfonía Biótica experience is delivered seamlessly, whether at a minimum or full configuration.
